

1. Mobile Token List

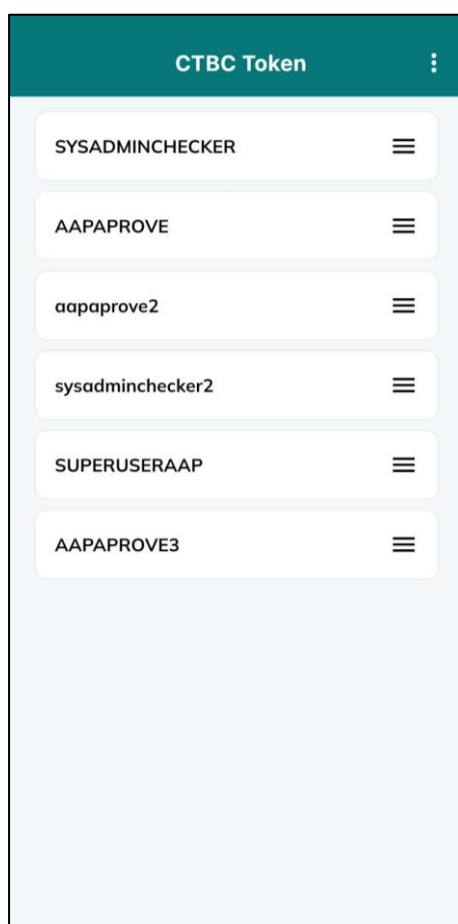

1.1 Challenge Response

This feature contains the authentication type that will be used to authenticate transactions. The authentication type used is Challenge Response.

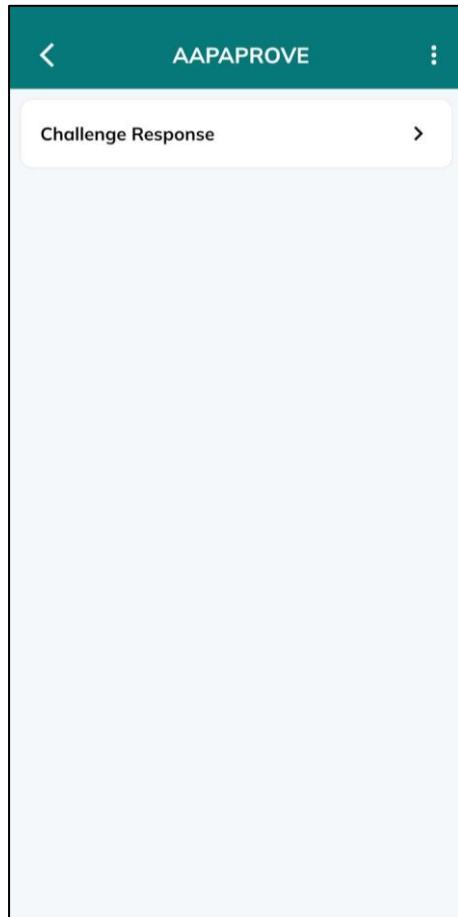

Users (Admins/Company Officers) must first enter a Challenge Code before receiving the Response Code. The Challenge Code is obtained from the Pending Tasks page in Primecash Corporate Internet Banking.

Here are the steps to fill out the challenge response in the **Mobile Token** application:

1. Go to the Mobile Token Home page. The Mobile Token Home page will be displayed.

2. Select a **User** from the list of registered token names. The **User** page will be displayed.

3. Click the **Respond to Challenge** button. The **Respond to Challenge** page will appear.

Reset

4. Enter the Challenge Code obtained from the Pending Tasks page.
5. Click the Reset button to clear the field or click the OK button to continue.

6. Click the **OK** button. The **Response Code** page will appear.

The screenshot shows a mobile application interface titled "Challenge Response". At the top left is a back arrow. Below the title, there is a section labeled "Response" containing a light gray box with the number "19069706". At the bottom of the screen is a large teal button labeled "Salin".

7. Click the **Copy** button to copy the challenge code. The **Challenge Response** page with the message "**Response copied**" will be displayed.

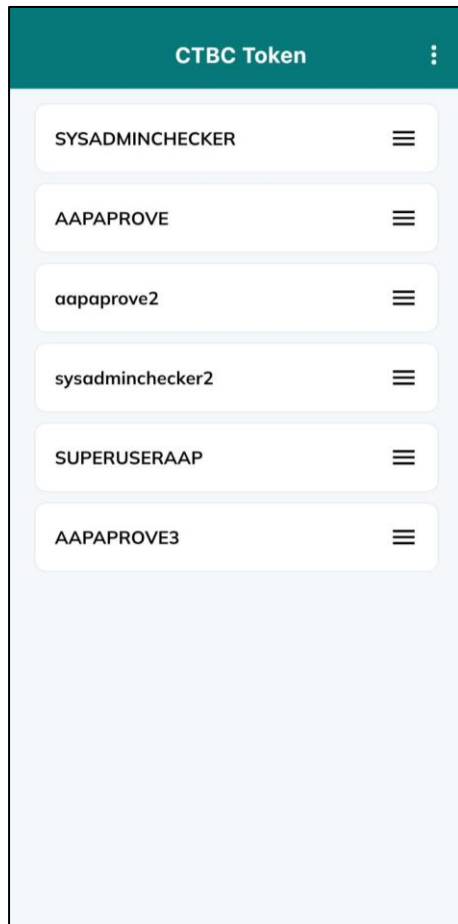

This screenshot is similar to the previous one, showing the "Challenge Response" screen. The "Response" box now displays the number "21876284". The "Salin" button remains at the bottom.

1.2 Change Token Name

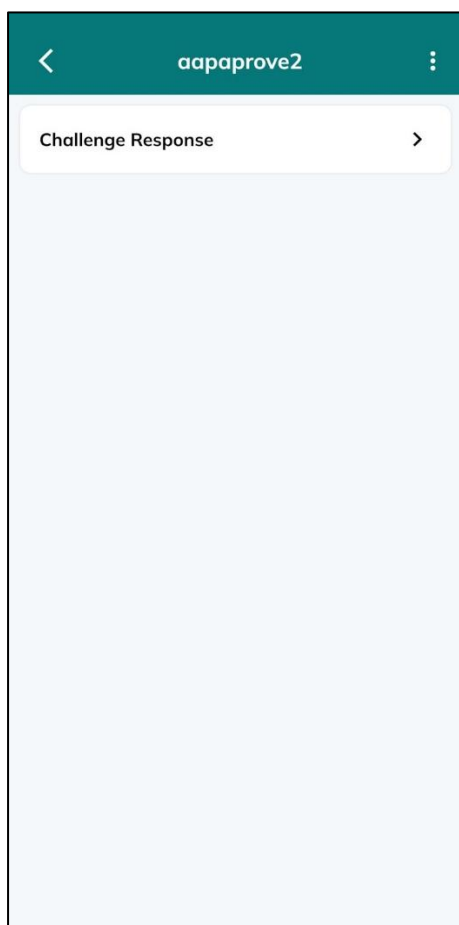

This feature is used to change the token name. The Token Name is an alias representing the Company Name, where the Company Admin/Officer ID is registered in the mobile token application.

Here are the steps to change the token name in the **Mobile Token** application:

1. Go to the **Mobile Token Home** page. The **Mobile Token Home page** will be displayed.

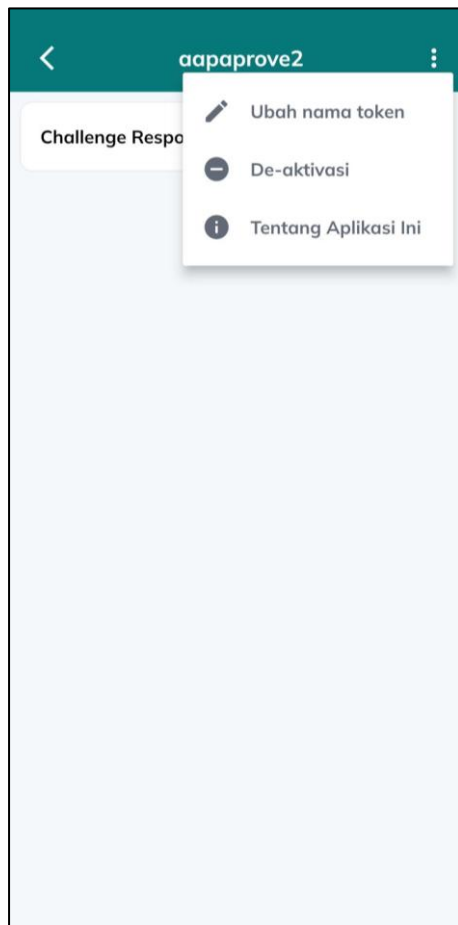

2. Select a **User** from the list of registered token names. The **User** page will be displayed.

3. Click the options menu (⋮) on the top right. A pop-up menu options page will appear.

- Click the **Change token name** button. The **Change token name** page will be displayed.

Reset

- Make any necessary changes.
- Click the **Save** button to save the new token name or click the **Reset** button to clear the field.

- Click the **Save** button. The **Main** page with a list of changed token names will be displayed.

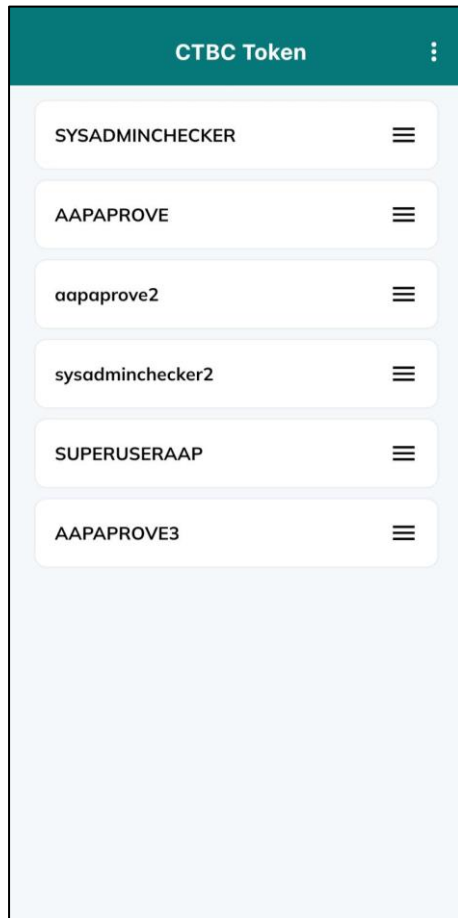

1.3 Deactivation

This feature is used to deactivate the Mobile Token application. After deactivating a specific token, the User (Admin/Company Officer) is advised to contact the Bank Officer/Company Admin to deregister the token for the User Identity at the company whose token was deactivated, before reactivating the token.

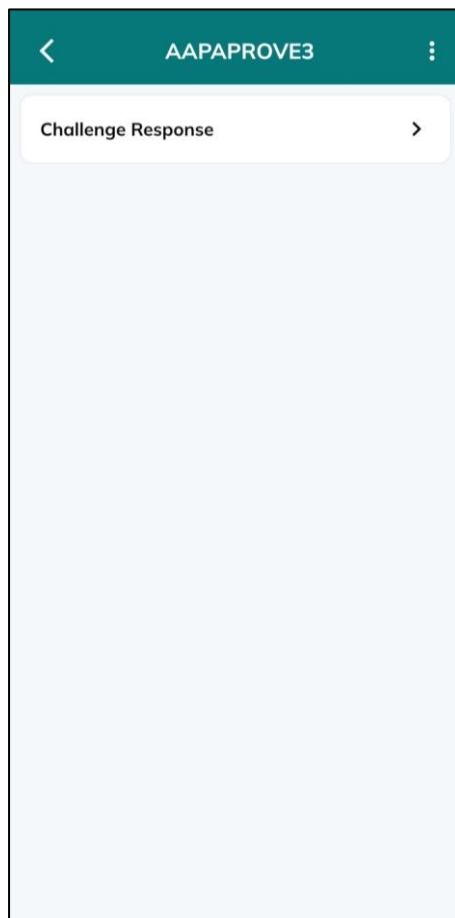

Here are the steps to deactivate a token in the **Mobile Token** application:

1. Go to the **Mobile Token Home** page. The **Mobile Token Home** page will be displayed.

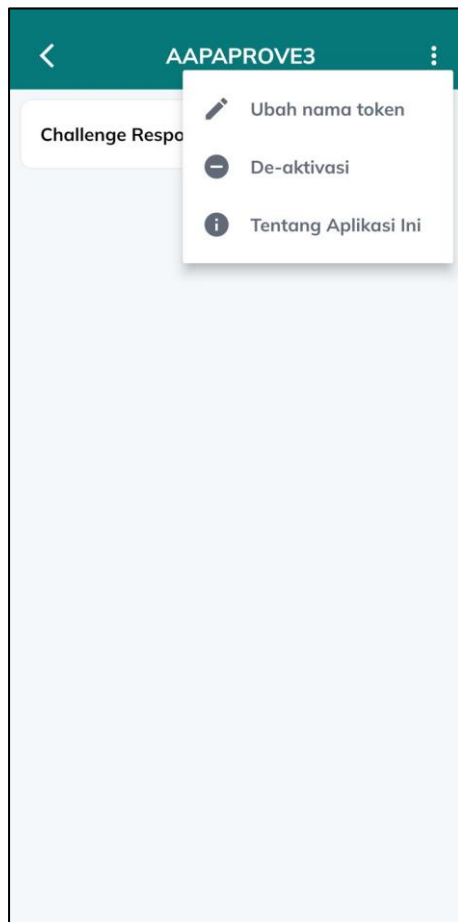

2. Select a **User** from the list of registered token names. The **User** page will be displayed.

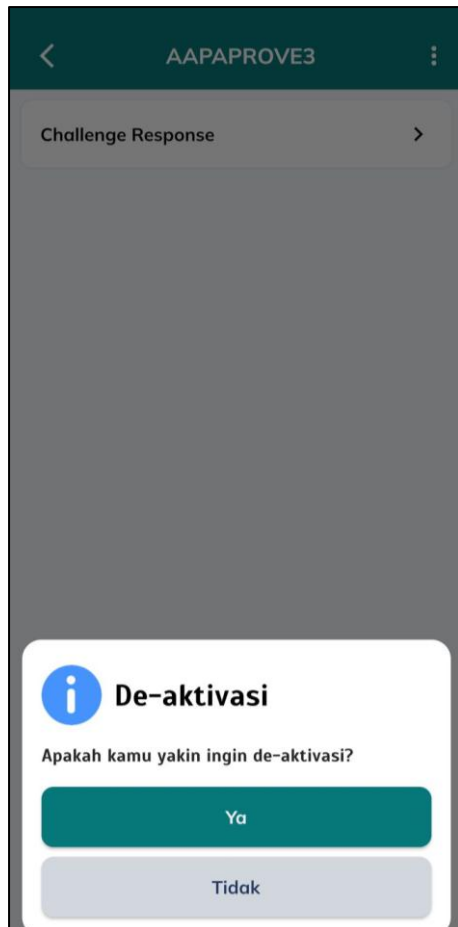

3. Click the options menu (⋮) on the top right. A pop-up menu options page will appear.

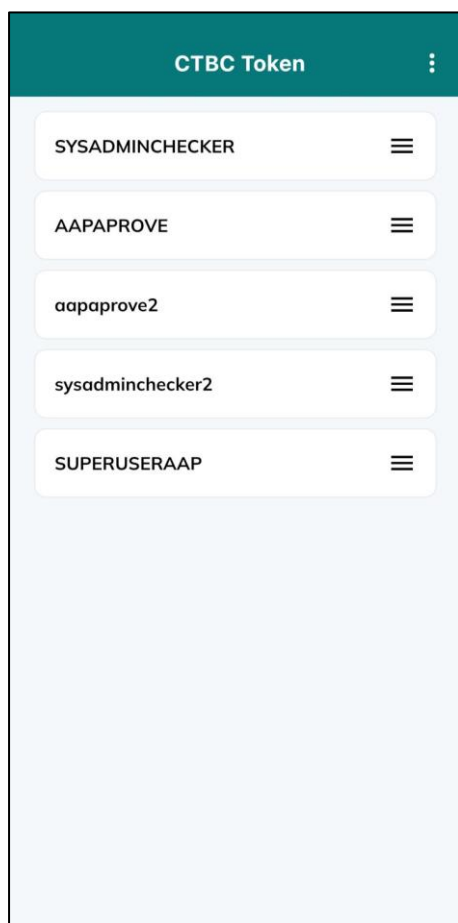

4. Click the **Deactivate** button. The **Deactivation Confirmation** pop-up page will appear.

5. Click the **No** button to cancel the process or click the **Yes** button to continue the process.

6. Click the **Yes** button. The **main** page with a list of deactivated tokens will be displayed.

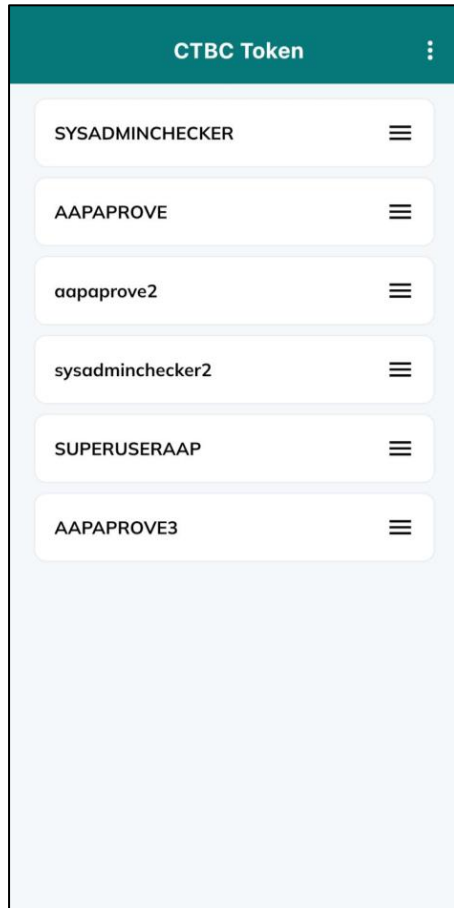

1.4 About Mobile Tokens

This page contains information about the User's (Admin/Company Officer's) mobile token.

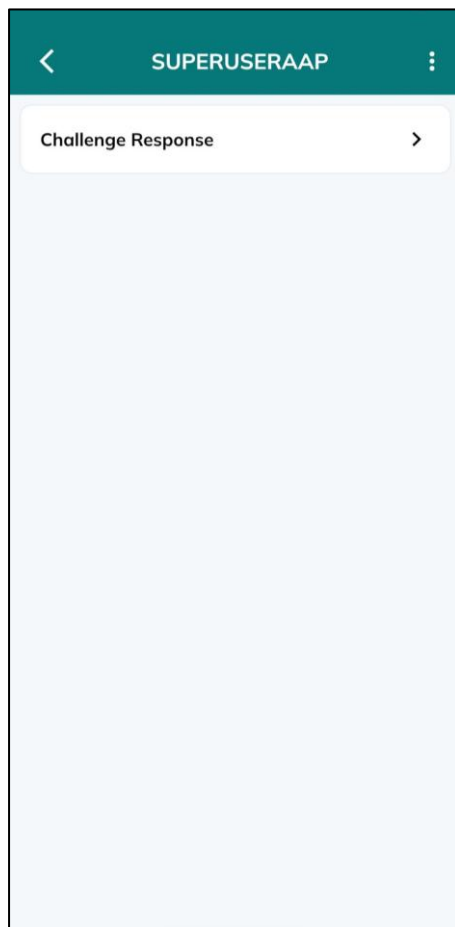

Here are the steps to view your mobile token in the Mobile Token application:

1. Go to the **Mobile Token Home** page. The **Mobile Token Home** page will be displayed.

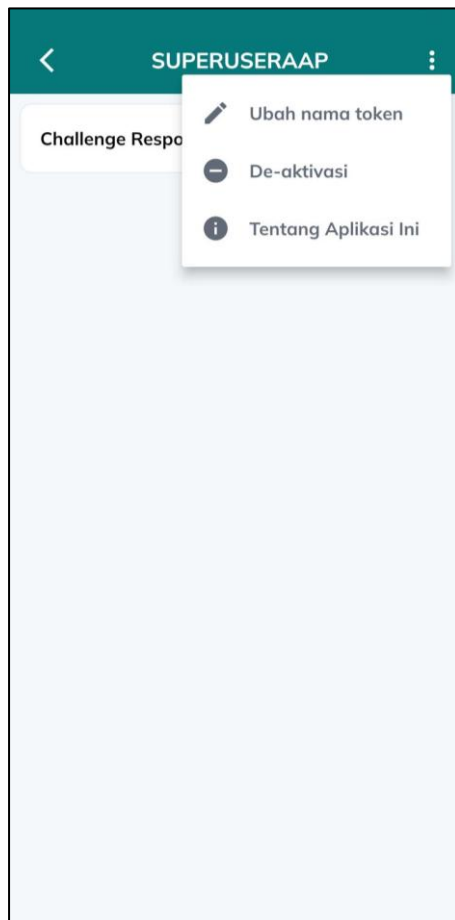

2. Select a **User** from the list of registered token names. The **User** page will be displayed.

3. Click the options menu (⋮) on the top right. A pop-up menu options page will appear.
